

When your algorithmic and programming skills have reached a level which you cannot improve any further, refining your team strategy will give you that extra edge you need to reach the top. We practiced programming contests with different team members and strategies for many years, and saw a lot of other teams do so too.

contains we developed
a theory about how
an optimal team should
behave during a contest
However, a refined
strategy is not a matter
The World Champions
of 1995, Freiburg University
were a rookie team
and the winners of
the 1994 Northwestern
European Contest, Warsaw
University, met only
two weeks before that
contest.
